

FOR IMMEDIATE RELEASE:

## **Customer Demand Drives New, Expanded Office Location for NeoTool**

*NeoTool's Healthcare Customer Growth and Added Resources Lead to New Office Space and Location*

PLANO, Texas, December 20, 2006 – NeoTool has moved to a new location in Plano, Texas with additional space to support NeoTool's growing healthcare customer base. The new address is:

6509 Windcrest Drive  
Suite 160B  
Plano, Texas 75024-3074  
469-229-5000

"The past year has been outstanding," said Phil Guy, NeoTool Chief Executive Officer. "The timely exchange of clinical data is growing at unprecedented rates. Each day, the results of this exchange is reflected in enhanced patient care as well as operational efficiency in hospitals, labs, imaging centers, clinics and many other healthcare facilities. Since our beginning in 1997, NeoTool's singular focus on helping our customers has been well received by providers, independent software vendors, and medical device manufacturers."

"We are energized about the year ahead," continued Guy. "NeoTool is committed to the healthcare market and more importantly to our customers' success. Delivering exceptional customer care and the industry's most effective healthcare integration solution is the foundation of NeoTool's growth."

"Our aggressive 2007 support, training, and product plans are being driven by our customers' requests," added Dave Shaver, NeoTool CTO and Founder. "Customer input is central in our planning, and we believe they will be pleased with the results we deliver in 2007."

NeoTool is operational in the new location. The new corporate telephone number is 469-229-5000.

### **About NeoTool:**

NeoTool's healthcare integration solutions empower organizations to develop, test, deploy, and manage data exchanges between healthcare applications and providers. Through software, HL7 training, and consulting, NeoTool is dedicated solely to healthcare application interfacing. NeoTool customers include healthcare providers (e.g., hospitals, imaging centers, labs, and clinics), healthcare software application providers, and medical device manufacturers.
